Excerpt from Cavalry Its History and Tactics There is, perhaps, no branch of the whole science of war which has engaged so little of the attention of military writers as that which refers to the formation and employment of cavalry; while at the same time it, must be admitted that few branches of the service are really more important than this. On looking, however, closely at the subject, it is easy to understand why this should be the case. The tactics of cavalry are not capable of being reduced to rule, like the mechanical operations of the engineer, or even the slower and more methodical movements of infantry. With the cavalry officer almost everything depends on the clearness of his coup d'ceil, and the felicity with which he seizes the happy moment of action, and, when once action is determined upon, the rapidity with which his intentions are carried into effect. There is little time for thought, none for hesitation; and, once the movement is commenced, its successful accomplishment is the only thought allowed to pass...
