Rational Spirituality Press, United Kingdom, 2010. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book. For thousands of years our view of the afterlife has been handed down to us by a variety of prophets and gurus. But in the last few decades thousands of ordinary people have been taken back into their life between lives in the light realms. Their consistent reports form one of the most profound sources of spiritual wisdom ever available to humanity. And now two researchers have decided to push this source to its limits. It is important enough that we should understand what happens to us between lives in the light realms: how we receive energy healing to lighten our vibrations; how we review our lives without judgment from higher beings; and how we choose and plan our next lives along with close soul mates, in order to face the lessons and experiences that will most allow us to grow. But what if we could use the interlife experience to answer a host of more universal questions of spiritual, historical and philosophical importance? About everything from unusual soul behavior and soul development, through humanity's past and future, to the true nature of reality and time? What if multiple regression subjects came up with consistent answers? And what if they displayed wisdom so profound as to be way beyond any normal human capacity?.
