Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Hawkins Indicator Catechism: A Practical Treatise for the Use of Erecting and Operating Engineers, Superintendents, Students of Steam Engineering, Etc The measuring instrument best designed to show the power of the steam engine is that invented by Watt - the steam engine indicator. Figs.5 and 6. The Indicator. Fig.7. The Indicator Spring. Note.- The purpose of the instrument is the same as a recording steam gauge, with this difference, that it records the pressure at each instant of the engine stroke, and this pressure is usually a variable one in different parts of the stroke. This is its object, simply to put upon paper the steam pressure pushing the piston at each point in the stroke, and at the same time to put on paper what pressure is opposing the piston at each portion of the piston stroke. That is all it does. The instrument may be considered as a steam gauge with a spiral spring to measure the pressure, and a pencil to record it. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
