Paperback. Book Condition: New. Paperback. 260 pages. What would you do if a wildfire swept through your area without warningIn October 1908, a wildfire swept through northeast Michigan and consumed 900 homes and two million acres of farms and forest. Despite the valiant efforts of the farmers, lumbermen, and shopkeepers, only Lake Huron could quench the flames. With no fire watch towers, spotting aircraft, telephones, or organized firefighting and only limited telegraph, warnings were too few and too late. Devil in the North Woods accurately depicts the fires genesis, growth, and aftermath. The storys real-life protagonist, 10-year-old Henry Hardies, survived the fire but family did not. Relying on Henrys personal recollections and author Walt Shiels faithful recreation of time and place, the book vividly brings Henrys ordeal to life. Devil in the North Woods contrasts the terror of natures destruction with a chronicle of family, love, sorrow, and recovery. The story leaves the reader buoyed by faith in the resilience of the human spirit and belief in loves ability to germinate amid the ashes of ruin. Includes a map and many historical photos not included in the print edition. This is first rate writing that at times will leave you wondering whether it is fact or fiction but in a manner that does not deceive or talk down to the reader. Highly Recommended. -Charles M. Noble, Amazon Vine reviewerWalt Shiel takes his readers into a vivid turn-of-the century adventure through Devil in the North Woods. This is a historically accurate account of a 1908 fire that destroyed the town of Metz, Michigan. Tragically, many of the towns citizens perished whether they tried to fight the fire or escape. Through their trials, Shiel highlights how different life was in the early 1900s, with horse-drawn transportation and one-room schoolhouses the norm. His...
