The University of Michigan Press, United States, 2012. Hardback. Book Condition: New. 232 x 162 mm. Language: English . Brand New Book. In the 19th and early 20th centuries, representations of Poland and the Slavic East cast the region as a primitive, undeveloped, or empty space inhabited by a population destined to remain uncivilised without the aid of external intervention. These depictions often made direct reference to the American Wild West, portraying the eastern steppes as a boundless plain that needed to be wrested from the hands of unruly natives and spatially ordered into German-administrated units. While conventional definitions locate colonial space overseas, Kristin Kopp argues that it was possible to understand both distant continents and adjacent Eastern Europe as parts of the same global periphery dependent upon Western European civilising efforts. However, proximity to the source of aid translated to greater benefits for Eastern Europe than for more distant regions.
